I am a proficient full stack developer with a proven track record of creating and implementing digital solutions. My adeptness at rapidly acquiring and mastering new technologies has been instrumental in driving success within collaborative and independent work environments. I am poised to contribute to elevating your organization's digital prowess.

# EXPERIENCE

### FULL STACK DEVELOPER
### FREELANCE, AUGUST 2023 – PRESENT

- Developing a web application using the Laravel PHP framework with bootstrap or tailwind.
- Designing and implementing efficient database structures using MySQL.
- Applying Laravel's MVC architecture for efficient and structured development, enhancing scalability and maintainability seamlessly.
- Creating a mobile app exclusively using a web view, optimizing cross-platform accessibility and user experience.
- Familiarity with version control systems, particularly Git, for collaborative development and code management.
- Continuously learning and staying up to date with the latest Laravel updates, web development trends, and best practices.

### GYM ATTENDANT, BETTER FITNESS STUDIO
### PART-TIME, MARCH 2023 – JUNE 2023

- I am responsible for ensuring the smooth operation and safety of the gym facility.
- Monitoring gym equipment usage, enforcing gym rules and regulations, helping gym members, maintaining cleanliness, and addressing any issues or concerns that may arise within the gym premises.

### NFT COMMUNITY MANAGER, DEFENCE OF FUTURE
### FREELANCE, JUNE 2022 – SEPTEMBER 2022

- I monitor discussions and address any inappropriate behaviour or content.
- Handling user inquiries, concerns, and disputes, requiring prompt and helpful responses.
- I also assist in events, contests, or educational initiatives within the NFT community.

### NFT COMMUNITY MANAGER, ELEF WORLD
### FREELANCE, NOVEMBER 2021 – JUNE 22

- I maintain a positive and engaging environment within the NFT community, ensuring compliance with community guidelines.
- Addressing user inquiries and concerns.
- Facilitating discussions and events related to NFT game.

### GRAPHIC DESIGNER, SERN SCHOLARSHIP
### CONTRACT, NOVEMBER 2021 – JUNE 22

- My primary responsibility was to create visually appealing and informative price updates for the coins and assets in an NFT game.
- Using my design skills and creativity, I crafted engaging graphics that effectively communicated the latest prices and market trends.
- I also had the responsibility of publishing these pub mats on the official Facebook page of SERN.

**AUTOCAD DRAFTER, AGRICOMP MACHINERIES CONSTRUCTION CORP.**

**IMMERSION, NOVEMBER 2019 – DECEMBER 2019**

- I am using AutoCAD software in the company.
- Create three-dimensional models and designs for various industries such as architecture, engineering, product design, or manufacturing.
- I am also responsible for transforming 2D drawings and concepts into detailed and realistic 3D representations.
